Growing Human Potential One Worldview at a Time

Leonard's Logic

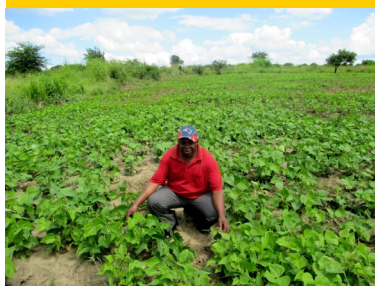

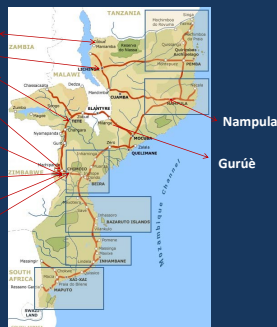

Don't wait for things to get easier, simpler or better, life will be always complicated. Don't wait for others to change your life, change your own life to change the lives of others. If you transform you have transformed the world around you. Don't worry about changing the rest of the world, you should strive to change yourself to change the world. If you speak the truth, truthfully working diligently both spiritually and physically you will without doubt affect the entire world positively. If you truthfully maintain a high standard of personal and environmental hygiene wherever you happen to be your neighbor (whoever is next to you) will fight to be like you or to be better than you. We change the world by changing ourselves first. Don't please people by telling them what they want to hear, God did not build the world on lies, He built the world on the Truth. ABC-Thinking is about the Truth, ABC-Thinking is Biblical-Thinking. Biblical-Thinking is the most important thing in life. When you acquire it you have everything.

Having acquired the Biblical-Thinking I Leonard Chiteshi am willing and racing against time to get knowledge about what is in the earth, on the earth, what is above the earth and what is beyond the earth to face the world around me and to tackle each day with the need to learn more. I now understand how much I don't know! Truly, I am unfamiliar with certain concepts and there are always new things to learn each and every day. Therefore, learning is a continuous process, from the mother's womb to death, even in the last moments of your life you should expand your knowledge. Who knows? It is better late than never!

I am always willing to learn from the Bible, other books, through media and other people to expand my worldview. I am open to talking and meeting with different people and learn new things from them. What exist makes things hap-

pen and I am no longer wasting time on what does not exist. Time lost is life lost. A lot of knowledge expands the brain. Therefore, the comprehension of what exist and what does not exist is key to desirable results. Bear in mind that it is important to learn about the positive and the negative but always act positively if you can and respect the adversity.

Through ABC-Thinking my curiosity has become insatiable, my hungry mind is curious about the world around me. I have a higher level of knowledge acquisition and intellectual investment than ever. My curiosity leads me to numerous questions and the need for solutions. After being empowered in ABC, I see more opportunities here in my country, Mozambique, than any other part of the world. As a result, I am developing IRI-Mozambique to be self-sufficient in 5 years. I have already started working on a couple of projects which include;

Local and International Biblical-Empowerment known as ABC-Thinking

Agriculture to support the Biblical-Empowerment

Shoe making to support the Biblical-Empowerment

A small shop to support the Biblical-Empowerment

Combine spiritual (a) empowerment and physical (b, c, d) empowerment to empower Christians and non-Christians.

Biblically there are many opportunities in Africa. Truly there are opportunities everywhere and anyone can achieve anything if one works hard and believes in himself. If you control yourself, you will be able to control your surroundings. However, if you don't take control of your surroundings, the people around you and the rest of your surroundings will take control of you!

fear to do what is good and above all unproductiveness is Biblical-Empowerment. "You cannot enslave a mind that knows itself, that values itself, that understands itself". Man's history is about his identity, it's about self-respect, it's about claiming his Biblical narrative as the Image of God. In His image God created one human race but different colors to represent Him in every way. Sadly, man choose to worship governments, other people, other races, animals, and non-living things. Man choose to listen to the world rather the Word of God, the Word of God is God. " In the beginning was the Word, the Word was with God, and the Word is God", (John 1:1). If man needs to claim his Biblical narrative he should go back to the past, to the Image of God. It means starting that journey again not jumping midday to claim Biblical narrative today. It's important to start again from the beginning to transform oneself to help transform the world. " If we stay devoted to our Creator our best days are yet to come".
