Status for Funding for tractor

We have a 50 h/p 4x4 Mahindra tractor with a PTO and 3 point hitch and draw bar. It has a farm hand also.

Tractor: cost \$10,000

(The tractor was valued at \$35,000)

We already had a third of the cost covered by donations and now must get it to Mozambique in the next year or so. To complete the purchase, we had to reroute funds that pay for travel expenses, including air fare. We need to complete our campaign to raise funds for the tractor, so we can pay back the money borrowed from the travel funds. We also need to complete the campaign to raise enough extra money to acquire a disk, cultivator, a corn seeder, peanut harvester, plow and box blade

Needs

The remainder of the cost of the tractor: \$6500

Due to the tractor being a 50 HP we need implements to fit this smaller size tractor

- 2 way disk
- Cultivator
- Box blade
- Corn seeder
- Peanut harvester
- Plow
- Cost of implements \$7000

Total cost needed \$13,500

Please consider helping with this project.
